OPEN CALL

**for General Councillor (representing Clinical Science) of the European Pancreatic Club
(EPC)**

MINIMUM REQUIREMENTS - ELIGIBILITY

- The applicant needs to be member of the EPC when the application is submitted
- The applicant needs to be member of the EPC for at least 5 years
- Good command of spoken and written English
- Personal commitment and adequate time resources for volunteer work
- The applicant has to be an internationally recognized clinician
- The applicant needs to have at least 5 original/review papers in international journals (listed in PubMed) in the field of clinical science in pancreatology
- The applicant needs to be available for two council meetings a year for 3 years

TERMS OF OFFICE

- The councillor will be elected for 3 years (from the end of the annual meeting of EPC 2015 – until the end of the annual meeting of EPC 2018)
- Second term is not possible

SUBMITTING APPLICATIONS

The application has to be addressed to the Secretary of the EPC and must be written in English.

The applications must include:

- completed application form (can be downloaded from <http://e-p-c.org/open-calls>)
- CV and list of main publications (full articles only) (maximum of 3 pages)
- Mission statement (maximum of 1 page)

Applications will be filed and tagged by the Secretary of the EPC. Should the application prove deficient, the Applicant shall be notified by e-mail within five working days. The Applicant should then eliminate the deficiency revealed within another five working days.

Submission deadline for the application: 5th June, 2015

Eligibility will be checked by the Council. Elections are performed at the General Assembly in the forthcoming EPC meeting in Toledo according to the rules stipulated in Article V in the statutes of the EPC.

vinciane.rebours@bjn.aphp.fr

Clichy, the 05/06/2015

Dear Professor Hegyi, Secretary of the EPC
Dear Colleagues, Dear EPC members

I am pleased to apply to become part of the EPC council as a clinical council member. My present position is Professor-Assistant in the Pancreatology unit of Beaujon Hospital, Clichy, France.

My clinical practice focuses primarily on pancreatic diseases and digestive oncology. Our unit was certified by the European NET society as a European Centre of Excellence for Management of Neuroendocrine Tumors. The main topics of my clinical and basic research are genetic pancreatitis and the relationship between inflammation and oncogenesis.

Since 2012, I have been the president of the French Pancreatic Club, which represents 150 members, including both clinicians and researchers. I would like to expand my engagement in the pancreatic community, and to share my knowledge with colleagues throughout Europe.

I would be particularly interested in promoting pancreatic research in clinical practice and basic research. I aim to contribute to the development of European studies under the auspices of the European Pancreatic Club.

Since 2004, I have attended each of the EPC meetings every year and have had the opportunity to present the results of my research studies. It would be a great honor to share my time, ideas and dedication with the EPC members.

I hope my application will correspond to your expectations.

Your Sincerely,

Vinciane Rebours
